

*EPCO's experienced personnel can rebuild machinery on your shop floor.*

### EPCO Plant Services, it's the Best Way to Protect Your Machinery Investment Today

EPCO can be your one-stop shop for all machinery services, whether it's preventive maintenance, machine repair, parts replacement, or complete machine rebuilding on your shop floor. And now, with our expanded engineering and parts departments, EPCO can rebuild a major component and replace it right at your facility. This saves the cost of rigging and shipping, and shortens the projected time frame. We can also make obsolete parts and upgrade the controls of older machinery. That means greater production capabilities, better quality end products, and profits. EPCO also maintains an extensive, computerized inventory of replacement parts. Our experienced personnel and fully-equipped vans arrive at your facility capable of maintenance, rebuilding, or if necessary, machine disassembly in order to ship major components to EPCO. This includes electrical cabinets, push button stations, shot, eject and clamp cylinders, links, lubes, accumulators, heat exchangers, manifolds and guards saving additional time and expense.

*Here is a partial list of the brands of machinery that we service, repair, and remanufacture:*

- | <b>Injection molding</b> | <b>Blow molding</b> | <b>Die Casting</b> |
|--------------------------|---------------------|--------------------|
| • Battenfeld             | • Milacron          | • American         |
| • Engle                  | • B&W               | • B&T              |
| • Farrel                 | • Bekum             | • Buhler-Prince    |
| • Hettinga               | • Hartig            | • Castmaster       |
| • Husky                  | • Hayssen           | • National         |
| • HPM                    | • Heins             | • Harvill          |
| • Jaco                   | • IMPCO             | • HPM              |
| • Milacron               | • Jomar             | • Kux              |
| • Mini-Jector            | • JSW               | • Lester           |
| • New Britian            | • Lesan             | • Kard             |
| • Nissei                 | • Norland           | • KR Wilson        |
| • Mitsubishi             | • Sidel             | • Frech            |
| • Reed-Prentice          | • SIPA              | • Birch            |
| • Toshiba                | • Sterling          | • Wotan            |
| • Ube                    | • Techne            | • UBE              |
| • Van Dorn Demag         | • Uniloy            | • Toshiba          |
| • Wabash                 |                     | • Quantum          |

*Continued on other side..*

**EPCO is a completely integrated service provider. We maintain your machinery equity.**

EPCO's expertise with all types of machinery can identify potential problems before they become down-time nightmares.

**A Full Menu of Services**

Our Field Service Department is standing by, ready to serve you with fast, dependable services such as:

- Preventive Maintenance
- Emergency Repairs
- Lubrication
- Routine Maintenance Checks
- Calibration
- Installations
- Troubleshooting
- Retrofits
- Machine Start-ups
- ANSI Safety Audits
- Complete Parts Support

**EPCO Contract Service Plans Are Pre-Paid Service Agreements Designed To:**

- Save you money on preventive maintenance
- Provide you with performance reviews for each machine
- Establish a **Service Checklist** customized to your specific equipment
- Deliver a preventive maintenance contract
- Increase your margins
- Reduce your overhead
- Maximize your equity by remanufacturing older machines

**Better, Smarter, Faster... Since 1959**

- Better- because our pricing is typically lower on hundreds of parts
- Smarter- because we've been pioneering machinery services for nearly 50 years
- Faster- because we have the facilities, personnel and resources that other, so-called, competitors don't have.

**Service & Parts: 24/7**

- Service and Parts available to you- any hour, any day.
- Supplier of DYNISCO Pressure and Temperature Instruments and accessories for all makes and models of molding machines and auxiliary equipment.
- GATES Hose Assemblies

And there's more...if you can't find the machine you're looking for and need to have special processing capabilities, call EPCO. We have the experience and resources to tailor the best solution for your specific needs.

**Why Choose EPCO?**

EPCO is the undisputed leader of molding machinery remanufacturing and rebuilding technologies. Unlike other so-called rebuilders who offer one or two services, EPCO is a full service provider. Check out our website, or call EPCO's sales department. Then ask around the industry and discover why EPCO continues to lead the machinery services industry with production-proven innovations. Our intimate knowledge of a variety of brands of equipment makes us the perfect partner for your in-plant services.
